

TUTELA TRANSMISSION GI/V Cod. 1460

DESCRIPTION

Synthetic-based lubricant specifically for automatic 5-gear transmissions. Specific formulation to warrant perfect lubrication also with controlled slip torque converter. Excellent viscosimetric stability. Specific for automatic new generation Fiat 5 gear-transmissions.

CHARACTERISTICS

Maximum quality and efficiency in whatever weather condition. Noise reduction. Tutela GI/V provides excellent wear driveability. Owing to its specific wear control additivation, it extends transmission life.

Important features:

- maximum viscosity stability
- protection against rusting and corrosion
- optimal polishing properties
- maximum compatibility with whatever material
- resistance to foaming

ADVICE ON USE

Drain intervals according to manufacturer indications

RECOMMENDED BY

Fiat Group Automobiles
