

Gaming Series

Power Supplies 450W / 550W / 650W semi modular / 750W

The new successful Gaming series combines high performance with a low noise level and high efficiency. The new DC/DC technology guarantees for increased efficiency and a maximum tension stability even during excessive gaming. Thanks to this high efficiency and the associated 80+ BRONZE certification high electricity costs are now a thing of the past. Six integrated safety circuits provide for an all-time safe operation and the sleeved main cable harness ensures order in the PC case.
