## Managing Your Mobile Wi-Fi

Manage your Mobile Wi-Fi using any of the methods below. You can customize Wi-Fi settings, block Wi-Fi devices and more.

### tpMiFi App

1. Get the tpMiFi app from App Store or Google Play, or by scanning the QR code.

- 2. Connect your wireless device to the Mobile Wi-Fi
- 3. Create a password to log in.

### Web Management Page

- 1. Connect your wireless device to the Mobile Wi-Fi. If it is a computer, make sure it is set to obtain an IP address automatically.
- 2. Launch a web browser and visit http://tplinkmifi.net or http://192.168.0.1. Create a password to log in.

## Charging Your Mobile Wi-Fi

### Method 1

### Method 2

Via a Wall Outlet (Recommended)

- The Battery LED will be solid green when the Mobile Wi-Fi is fully charged.
- The power adapter is not provided by TP-Link.

## FAQ (Frequently Asked Questions)

### Q1. What should I do if I cannot access the internet (the Internet LED @ doesn't light up)?

- A. Visit the web management page (http://tplinkmifi.net) on your phone, and check the following:
- Check PIN status
- If the current SIM card status is PIN Locked, your SIM card is PIN protected and you need to unlock it using the PIN code provided by your mobile carrier
- Verify the mobile carrier parameters
- 1. Go to Dial-up, tap View profile details, and verify that the parameters (i.e. APN, username and password) provided by your mobile carrier are correct.
- 2. If the parameters are not correct, return to the Dial-up page and create a new profile with the correct information.

#### Check the Data Roaming settings

- If your SIM card is operated in a roaming service area, go to Dial-up, enable Data Roaming and tap Done.
- Check Mobile Data
- Go to Dial-up to verify that Mobile Data is On. If not, enable it and tap Done.
- Check Data Limit
- Go to Device > Data Usage Settings to check whether your data usage has exceeded the Total/Monthly allowance.

### Q2. How do I restore the Mobile Wi-Fi to its factory default settings?

A. With the Mobile Wi-Fi powered on, remove the cover, then use a pin to press and hold the Reset button until all LEDs turn on momentarily. Note: Restoring the device to its factory defaults will clear all your settings.

## Safety Information

- Keep the device away from water, fire, humidity or hot environments.
- Do not attempt to disassemble, repair, or modify the device. If you need service. please contact us.
- Do not use the device where wireless devices are not allowed.

#### CAUTION!

- Avoid replacement of a battery with an incorrect type that can defeat a safeguard.
- Avoid disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- Do not leave a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas. Do not leave a battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

#### CAUTION!

Risk of explosion if the battery is replaced by an incorrect type.
