Overview

HPE OfficeConnect 1420 Switch Series

The HPE OfficeConnect 1420 Switch Series consists of unmanaged Gigabit Ethernet switches, for small business and others looking for plug-and-play basic Layer 2 connectivity for their network, including low-cost PoE+ and 10-Gigabit uplink models.

The HPE OfficeConnect 1420 Switch Series consists of unmanaged business-class Gigabit Ethernet switches for small business and others looking for plug-and-play basic Layer 2 connectivity for their network. The 1420 Switch Series includes nine Gigabit switches: 16-port 10/100/1000, 24-port 10/100/1000 with two SFP Gigabit ports, 24-port 10/100/1000 ports of which 12 are Power over Ethernet (PoE+) enabled with a total PoE power budget of 124W, and 24-port 10/100/1000 with two SFP+ 10GbE ports. The 1420 Switch Series also includes a 5-port 10/100/1000, 5-port 10/100/1000 with 4 out of 5 ports as PoE+ ports, an 8-port 10/100/1000, 8-port 10/100/1000 with 8 out of 8 ports as PoE+ ports and a simple 24 port 10/100/1000 switch. They are fanless for silent operation. They come with a limited lifetime Warranty.

HPE OfficeConnect 1420 switches have quality of service (QoS) support and IEEE 802.3x flow control features that improve network efficiency. Simplified plug-and-play convenience is supported by features such as auto-MDIX and auto-speed negotiation. Hewlett Packard Enterprise has innovated and combined the latest advances in silicon technology to bring you some of the most power-efficient switches. All models support the Energy Efficient Ethernet IEEE 802.3az standard, as well as auto power-down mode on idle ports and power saving on short-distance cables. With their fanless silent operation, these switches are ideal for office deployment. HPE OfficeConnect 1420 switches come with a limited lifetime warranty.

HPE OfficeConnect 1420 Switch Series

Key features

- Unmanaged plug-and-play Gigabit Ethernet switching
- Green features for low power consumption
- Fanless design for silent operation
- Quality of Service capabilities for improved network efficiency
- Limited lifetime warranty

Standard Features

Features and benefits

Ease of use

Unmanaged

provides plug-and-play simplicity

Auto-speed negotiation

selects individual port speed automatically, depending on client capabilities; removing the need for manual intervention enables simple plug-and-play operation

• Comprehensive LED display with per-port indicators

provides an at-a-glance view of the status, activity, speed, and full-duplex operation of the switches

Flow control

helps ensure reliable communications during full-duplex operation

HPE/IEEE Auto-MDIX

automatically adjusts for straight-through or crossover cables on all RJ-45 ports

Connectivity

Gigabit Ethernet 10/100/1000 Connectivity

supports high-speed Ethernet connections over highly affordable copper Category 5 cabling.

• 10-Gigabit fiber connectivity

Future-proof 10-Gigabit technology allows high-speed fiber connection to servers or other switches, with connection flexibility using optional SFP+ or SFP transceivers.

• IEEE 802.3at Power over Ethernet (PoE+)

provides up to 30 W per port, which allows support of the latest PoE+-capable devices such as IP phones, wireless access points, and security cameras, as well as any IEEE 802.3af compliant end device; reduces the cost of additional electrical cabling and circuits that would otherwise be necessary in IP phone and WLAN deployments (for PoE model)

Performance

Energy-efficient Ethernet support

supports new IEEE 802.3az standard; and allows lower power consumption, when operated with IEEE-compliant client devices in 100 Mb/s mode only

• Half-/full-duplex auto-negotiating capability on every port

doubles the throughput of every port.

Jumbo frame support

allows frames up to 9,216 bytes to be switched through the network

Flexibility

Fanless design

enables quiet operation for deployment in open spaces

Internal power supply

delivers operational convenience and an environment suitable for business operations

Quality of Service (QoS)

• IEEE 802.1p prioritization

delivers data to devices, based on the priority and type of traffic

DiffServ Code Point (DSCP) support

allows real-time traffic prioritization, based on L3 TOS/DSCP parameters

Warranty and support

Limited Lifetime Warranty

See http://www.hpe.com/officeconnect/support for warranty and support information included with your product purchase.

Configuration Information

Build To Order: BTO is a standalone unit with no integration. BTO products ship standalone are not part of a CTO or Rack-Shippable solution.

> 1000 Mb Latency < 16 µs (LIFO 64-byte packets) **Throughput** up to 35.7 Mpps (64-byte packets)

Switching capacity 48 Gbps MAC address table size 8192 entries

Reliability MTBF (years) 699

Environment 32°F to 104°F (0°C to 40°C) Operating temperature

> Operating relative humidity 5% to 95%, noncondensing -40°F to 158°F (-40°C to 70°C) Non-operating/Storage

temperature

Non-operating/Storage relative 5% to 95%, noncondensing

humidity

Altitude up to 16,404 ft (5 km) Acoustic Power: O dB No fan

Electrical characteristics Frequency 50/60 Hz

> 100 - 240 VAC, rated Voltage

Current 0.3/1.8 A Maximum power rating 160 W 124 W PoE+ PoE power

Notes Maximum power rating and maximum heat dissipation are the

> worst-case theoretical maximum numbers provided for planning the infrastructure with fully loaded PoE (if equipped), 100% traffic,

all ports plugged in, and all modules populated.

PoE Power is the power supplied by the internal power supply, it is dependent on the type and quantity of power supplies and may be supplemented with the use of an External Power Supply (EPS). This product provides PoE or PoE+ power across 12 of 24 ports, with a total power budget of 124W. This model is designed with internal power supply. Please select the correct power cord

country option.
