USB Type-C connector

Take a Leap

USB 3.1 Gen 1 Card Reader | RDC8

Aiming at the new computer platforms with a Type-C USB port, such as Apple's 12-inch MacBook and Google's Chromebook Pixel 2, Transcend's RDC8 card reader with three slots can unleash the full potential of most of the flash cards, including SD cards, microSD cards, and CompactFlash cards. Equipped with USB 3.1 Gen 1 interface, Transcend's RDC8 is an ideal choice for fast and efficient data transfer from a flash card to a laptop with Type-C USB ports.

Type-C USB connector   **All-in-one design**

- USB 3.1 Gen 1 interface
- Compact and easy-to-carry
- An LED indicator to show card insertion and data transfer activity
- Supports SD & CF built-in security functions*

*Not all cards support built-in security functions.
Please check with the memory card manufacturer for compatibility details.

Unleash the full speed potential of your memory cards
