

Adhesive lubricant HHS® foodstuffs

Waterproof, synthetic adhesive lubricant with penetrating properties

Can be used in areas in which food is processed or stored

NSF H1-registered. The product may come into contact with foodstuffs for technical reasons.

Excellent penetrating properties

- For lubrication in hard-to-reach places
- Penetrates very tight spaces and tolerances

Good adhesive properties

- Broad application range, e.g. on vertical lubrication points
- Resistant to centrifugal forces on turning and rotating parts

Provides lasting protection against corrosion and non-ferrous metal corrosion

Waterproof

Resin-free and acid-free

Silicone-free and AOX-free

Contents	500 ml
Chemical basis	Synthetic oil with a multifunction additive combination
Colour	Colourless
Min./max. temperature conditions	-25 to 180 °C
Shelf life from production	24 Month

Art. No. 0893 107 6

P. Qty.: 1 / 12

Details/Application

Suitable for universal lubrication at high pressure loads, e.g. for chains, racks, joints, levers, bearings, sliding points, cables, open drives, and hinges.

Instructions

Shake can well before use. Thoroughly clean the lubricating point and then apply where required.

Proof of performance

NSF H1-registered (no.: 140816), meets the requirements of H1, 1998.

NSF = internationally recognised organisation for the supervision and registration of products used in the food processing sector

Notice

If used in areas in which food is processed or stored, only the minimum quantity technically necessary may be used. When using as an anti-corrosive film for food contact surfaces, completely remove all lubricant before re-starting the device.

The usage instructions are recommendations based on the tests we have conducted and our experience; carry out your own tests before each application.
